TEACHING- LEARNING AND EVALUATION

SUMMARY

SEMINAR PRESENTATION

Institute takes great pride in fostering the holistic development of our students, which goes beyond conventional academic learning. In this pursuit, we recently organized a highly enriching seminar aimed at enhancing essential skills for our students' overall growth. The seminar, focusing on both curriculum and non-curriculum topics, was meticulously designed to provide a platform for students to hone their presentation skills, boost their self-confidence, and nurture a host of other invaluable attributes. Through thought-provoking discussions on curriculum subjects, students were challenged to delve deeper into their academic knowledge and articulate their ideas with clarity and precision. Simultaneously, sessions on non-curriculum themes allowed them to explore new territories, enabling them to broaden their horizons and cultivate a more versatile perspective. The interactive nature of the seminar fostered a dynamic environment where students engaged in meaningful conversations, exchanged ideas, and received constructive feedback, thereby refining their communication and interpersonal skills. Moreover, the seminar served as a catalyst for nurturing self-assurance. By presenting their thoughts and opinions in front of peers and experts, students gained a renewed sense of confidence that extends well beyond the confines of the seminar room. This boost in self-esteem is poised to empower them not only academically but also in their future professional endeavors.
