## SUMMARY

### TEACHING- LEARNING AND EVALUATION

Key Indicator: 2.3	Teaching- Learning Process
Metric No : 2.3.1	Student centric methods, such as experiential learning, participative learning and problem solving methodologies are used for enhancing.

### SEMINAR PRESENTATION

Institute takes great pride in fostering the holistic development of our students, which goes beyond conventional academic learning. In this pursuit, we recently organized a highly enriching seminar aimed at enhancing essential skills for our students' overall growth. The seminar, focusing on both curriculum and non-curriculum topics, was meticulously designed to provide a platform for students to hone their presentation skills, boost their self-confidence, and nurture a host of other invaluable attributes. Through thought-provoking discussions on curriculum subjects, students were challenged to delve deeper into their academic knowledge and articulate their ideas with clarity and precision. Simultaneously, sessions on non-curriculum themes allowed them to explore new territories, enabling them to broaden their horizons and cultivate a more versatile perspective. The interactive nature of the seminar fostered a dynamic environment where students engaged in meaningful conversations, exchanged ideas, and received constructive feedback, thereby refining their communication and interpersonal skills. Moreover, the seminar served as a catalyst for nurturing self-assurance. By presenting their thoughts and opinions in front of peers and experts, students gained a renewed sense of confidence that extends well beyond the confines of the seminar room. This boost in self-esteem is poised to empower them not only academically but also in their future professional endeavors.

## Report –

On 01<sup>st</sup> August 2023 at the seminar, Chaudhari Hemant Balu delivered an enlightening talk on "Self-Nucleic Acid Sensing: A Novel Crucial Pathway Involved in Obesity-Mediated Metaflammation and Metabolic Syndrome." Mr. Hemant shed light on the emerging research indicating that self-nucleic acid sensing plays a significant role in the development of obesity-related metaflammation and metabolic syndrome. His insightful presentation explored the molecular mechanisms underlying this pathway and its potential implications for developing targeted therapies to combat these prevalent health issues. Additionally, Mr. Deshmukh Anand Shyam delivered an engaging lecture on "Vitamins" encompassing both fat-soluble and water-soluble vitamins. Mr. Anand provided a comprehensive overview of the importance of these essential nutrients in maintaining overall health and well-being, elucidating their specific roles of vitamins. The seminar was an enriching experience that deepened the F. Y. B. Pharm A Division students understanding of critical biological pathways and the significance of vitamins in promoting optimal health.
