Key Indicator: 2.3	Teaching- Learning Process
Metric No : 2.3.1	Student centric methods, such as experiential learning, participative learning and problem solving methodologies are used for enhancing.

INDUSTRIAL TRAINING

Industrial training is a crucial and integral component of the curriculum, offering students a unique opportunity to bridge the gap between theoretical knowledge and practical application. By immersing themselves in renowned pharmaceutical companies across India for a duration of 15 days to one month, students gain invaluable insights into real-world operations, processes, and challenges within the pharmaceutical industry. This hands-on experience not only enhances their technical skills but also hones their problem-solving abilities, teamwork, and adaptability. Through direct engagement with industry professionals, students acquire a deeper understanding of industry trends, regulatory practices, and innovative research, fostering a holistic educational journey that nurtures well-rounded and industry-ready graduates.
