It's empirically proven that colors have a stimulating power on the brain and can help stimulate the learning process, In light of this we have conducted an in-depth study on colors and studied their impact by compiling and synthesizing different researches. In today's time, colors are being used as an effective means to achieve targeted responses and to influence behaviours of the prospect. Entailing the similar notion, thought of designing a game that combines the prominent colors and a sport that involves all parts of the body and various set of skills, so u can say it the mother of all games. YOTI Foundation has taken an initiative to promote this unique game in India and profusely structure the Aainball Federation in India. Aainball sport, a step-by-step illustration of the different sequence of the game.

Under the leadership of our Chairperson Dr. Sunita Godara (Asian Marathon Championship) In 2018 the National Championship was organized at Haridwar where 150 players participated from 12 States, former sport minister Shri Narain Singh Rana was the chief guest and not only impressed with this sport but shown his interest to develop the game in Uttarakhand.
