## About College

SES's H. R. Patel Institute of Pharmaceutical Education and Research, Shirpur, is a leading pharmacy Institute run by Shirpur Education Society (SES), Shirpur since 2004. A congregation educational institutes operate under the aegis of SES, including R. C. Patel Institute of Pharmaceutical Education & Research, R. C. Patel Institute of Technology, Institute of Management Research Development, M.C.A, M.C.M., R. C. Patel Science College etc. H. R. Patel Institute of Pharmaceutical Education and Research had been a dream of a renowned personality with unparalleled vision, Late Shri. Rasiklalji C. Patel. The Institute caters diploma, degree, post-graduation and Ph.D. courses in Pharmaceutical sciences. The institute is certified by ISO 9001 :2008. In 2019, the institute's B. Pharm course is accredited by National Board of Accreditation (NBA) for three years. Since its inception, the institute is striving to serve the needs of budding pharmacists. The educational ambience of the campus has been meticulously planned to provide the students with ultra-modern research laboratories, auditorium and well furnished spacious class-rooms equipped with modern teaching aids.

## Our Vision

We aspire to do advancement of knowledge through excellence and innovation in education, research and outreach activities.

## Our Mission

To conduct high quality educational and research activities that benefits students, researchers and communities across the nation. We will also abide to extent, apply and exchange knowledge between the institutions, industry and society.

## How to reach at Shirpur?

Shirpur is situated on the Mumbai Agra National Highway (NH3) and is about 52 Kms from Dhule.

The nearest railway stations are :

Nardana (25 km), Dhule (52 km), Nandurbar (70 km)

Bhusawal (100 km), Jalgaon (92 km)

The distances of other cities by road :

Pune (400 km)

Nashik (205 km)

Aurangabad (180 km)

Mumbai (400 km)

Indore (200 km)

Surat (200 km)

Baroda (340 km)

Ahmedabad (450 km)

## About the Department

Department of Pharmaceutical Chemistry is an integral part of a pharmacy education program, as it covers several aspects of new drug discovery and development. The subject of Pharmaceutical Chemistry plays a vital role in grooming a student into a true Pharma Professional. The collaborative research environment within the department and with other departments of the institute will expose students to a wide array of modern state of art research not only in the pharmaceutical sciences but also interdisciplinary research, invaluable for a successful career in the chosen field. The department is flourished from this base and currently represents world-class knowledge in structure prediction, analysis and interpretation, synthetic and chemical biology. The curriculum includes extensive lectures as well as laboratory sessions to ensure that students can connect theory to practice and apply their theoretical knowledge gained. The department strives towards publishing their research in international journals of repute with good impact factor journals and also attends and presents their research work in many national and international forum i.e. seminars and conferences. The department is actively involved in writing research projects and has received research project grants from various national agencies.

## Aim and Objective of Seminar

➤ It seeks to promote interdisciplinary collaboration between those interested in the theoretical and clinical aspects of medicine and to foster the application of computers and mathematics to problems arising from medical sciences. The pharmaceutical sector plays a critical role in the development and design of medications and vaccines. They have an essential part in the treatment of diseases and, more significantly, in the improvement of people's quality of life.

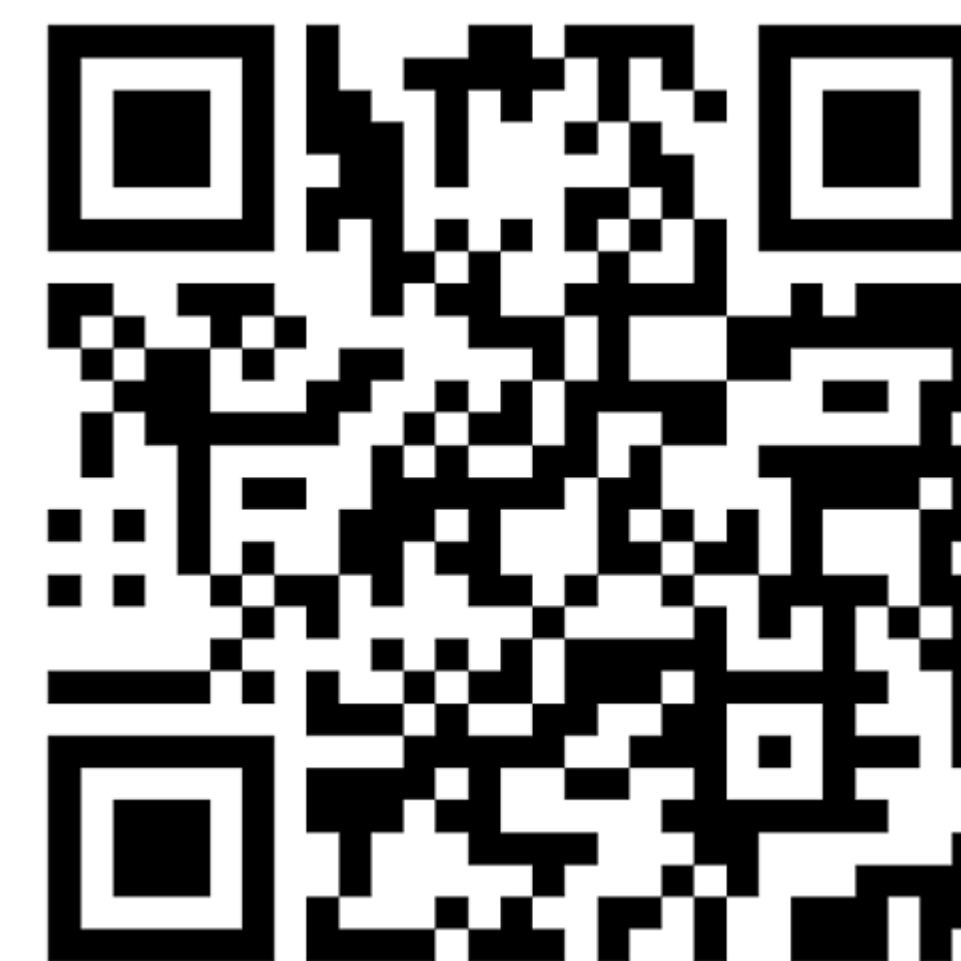

Seminar provides an ideal forum for interaction with specialists from across the world in the fields of pharmaceuticals, drug delivery, nanomedicine, biotechnology, and nanotechnology, with the goal of sharing some unique research and translational studies on various achievements in the fields.

## Participants

Participation to symposium is open to all graduates and post graduate students of all streams, research scholar, teachers and those who are interested in research activity. Those desirous of attending and participating in symposium should fill in the registration form and contact to coordinator.
